September 27, 2019

Dear Families,

We are committed to establishing partnerships between school, home, and the community to create a bright future for each and every student. To help support our work together, we are supporting equity by providing access to thousands of books to all Lompoc students through Lompoc READS!

| Research shows that having a 500-book library in the home has as great an effect on the level of education a child will attain as having parents with a university level education. Both can propel a child 3.2 years further on average. |

As the school year progresses, we look forward to the following achievements:

- All Lompoc students in TK-8 have unlimited access to thousands of books at home and in community centers
- All Lompoc students have consistent and substantial reading growth
- All Lompoc students learn to read by the end of third grade
- All Lompoc students leave high school ready for college and career and prepared to fulfill their role as global citizens

We are very excited and proud of the amount of reading your students have already accomplished this summer. In celebration, we are extending the gift of literacy by providing students with anytime, anywhere access to more than 8,000 enhanced digital books in English and Spanish this school year. With our home-to-school community reading model, we are expecting to see continued progress and success, including extended learning opportunities where reading outside the school day occurs.

Please see the attached page for more information about your student’s myON account. If further support is needed, please contact Tina Wall, wall.tina@lusd.org or (805) 742-3240.

Yours in Education,

Trevor McDonald
Superintendent of Schools
